# Properties on Koh Chang

Thailand's second largest island offers tranquil investment opportunities. Tranquility Bay Residence Koh Chang's lifestyle Investment.

Tranquility Bay Residence is located in arguably the premier location on the island of Koh Chang, situated in the Gulf of Thailand.

Koh Chang whilst the second largest Island in Thailand after the more famous island of Phuket, is currently undergoing quite rapid development, but has a long way to go before it reaches a state of maturity.

With only 20% percent of the island being made available for development, almost all the beach land has been sold and has either been developed or is under development or planning permissions.

The Island continues to enjoy strong increases in tourist numbers each year and is widely regarded as the Jewel in the crown of Thailand.

Tranquility Bay Residence was built on the concept of providing a luxurious alternative to those individuals and investors who had grown tired of the more built up and tourist developments in other areas in the country.

The property now boasts one to four bedroom condominiums, 79 units altogether and a further 9 plots for the beachfront Villas. A private 320 metre private Jetty, including mooring facilities, a 30 metre infinity edge swimming Pool together with our Restaurant and recreation areas as well as the state of the art Spa building. The 3 floor lobby with Coffee lounge, Fitness Center, Library & Business Center, etc.

49 out of 79 condominium units have been sold including 1 beachfront pool villa. It is our belief that this project will achieve significant financial returns to each and every investor and is enormously proud of the work carried out to date.

The development is located only 300 metres pass Bangboa fisherman village intersection.
